

1250 Outdoor Wood Boiler

The East Lake Alternative Energy 1250 Outdoor Wood Boiler has been designed using the best computer technology available and assembled by precision demanding Amish fabricators. By compacting the efficiency and durability of the "big" boilers into a smaller furnace, the 1250 Outdoor Wood Boiler offers an excellent choice for those looking to heat smaller capacities.

FEATURES

- 125 Gallon water tank
- Firebox Size: 25.5" wide x 31" height x 36" depth
(will fit 40" log lying beside chimney)
- Ash Pan Drawer Size: 39" x 11.75" x 4"
- Made with 1/4" mild steel. This is softer and much easier to weld in the unlikely occurrence of a leak.
- 10 gauge water jacket - approx. 1/8"
- Chimney is made with well casing, schedule 40 (hard)
- Door is insulated with Vermiculite (8,000 degrees)
- 16 gauge exterior metal - approx. 1/16"
- Hinged back access door
- Protected solenoid and electrical components
- 7 lb. lift solenoid
- 20 year limited warranty
